## Datasets used:

### Global Militarization Index (QoG code: bicc)

Compiled by BICC, the Global Militarization Index (GMI) presents on an annual basis the relative weight and importance of a country's military apparatus in relation to its society as a whole. The last update of GMI covers 149 countries and is based on the latest available figures (up to 2022). The index project is financially supported by Germany's Federal Ministry for Economic Cooperation and Development. (Bayer, Markus and Paul Rohleder 2023)

Please visit [Global Militarization Index's webpage](#)
